DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the last three lines of claim 1 recite the fluid reservoir-tray 54 for blocking the flow of high-pressure fluid. It appears that the fluid reservoir-tray is for conducting spent water and the fluid-blocker 58 is for blocking the flow of high-pressure fluid. Since it is unclear whether the Applicant intends to claim the fluid-reservoir-tray or the fluid blocker, the newly added limitation of the fluid reservoir-tray will not be considered in claim 1.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claim 1, 17 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Weinstein et al. (6,670,011 B2), hereinafter Weinstein.

Regarding claim 1, Weinstein teaches a method for producing a frangible fiberglass insulation batt comprising the step of passing a fiberglass insulation blanket

through an interval fluid cutter to form intermittent gaps. See col. 16, line14-col. 18, line 25 and Figs. 16-18.

Regarding claims 17 and 20, Weinstein teaches a method for producing a frangible fiberglass insulation batt comprising the steps of passing a fiberglass insulation blanket through an interval fluid cutter to form intermittent gaps and passing the two side-by-side strips through a curing oven to form a frangible bridge spanning each of the series of intermittent gaps. See col. 16, line14-col. 18, line 25 and Figs. 16-18.

It is to be noted that since the Applicant does not exclude the binder extant being provided from an external source, Weinstein's binder extant reads on the claimed invention.

Allowable Subject Matter

5. Claims 3-16 and 21 are allowed.

Claim 3, 7 and 13 are allowable for setting forth the fluid blocker comprising a slot.

Claim 21 is allowable for setting forth the fluid-reservoir tray being positioned above the fiberglass blanket and having a fluid-discharge aperture.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3724

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
